---

**Date:** \_\_\_\_\_ **Last Name:** \_\_\_\_\_

**Pet's Name:** \_\_\_\_\_ **Your Pet's Procedure:** \_\_\_\_\_

Your pet's surgery requires the use of a general anesthetic. We will do everything to ensure a safe and speedy recovery, including a complete physical exam, safe anesthetic tailored to your pet's special needs, as well as, monitoring equipment, which will be in place during the entire time of anesthesia.

We must inform you that there is a minor risk in pets undergoing anesthesia just as there is in people. These risks include an underlying condition not detectable by physical exam or an allergic reaction to the anesthetic agents. Although the risks are minor, we feel that we must inform you of these.

***I state that I have read the preceding paragraphs and understand that there is a small risk with any procedure requiring general anesthetic. I also state that if there were any unforeseen complications from using anesthetic with my pet, I will not hold Mancelona Veterinary Hospital or any of its agents at fault.***

***Rabies Vaccine:*** (Cost: \$30) A current rabies vaccination is required for all surgical procedures. If your pet does not have a current rabies vaccine, we will administer it at the time of surgery.

**Accept:** \_\_\_\_\_

***Recommended Vaccines/Tests/Microchip:***

- \_\_\_\_\_ **FVRCP Vaccine** (Cost: \$38)
- \_\_\_\_\_ **FVRCP with Leukemia Vaccine** (Cost: \$51)
- \_\_\_\_\_ **Intestinal Parasite Check** (Cost: \$23)
- \_\_\_\_\_ **FeLV/FIV Testing** (Cost: \$55)
- \_\_\_\_\_ **Micro-chipping** (Cost \$50). This price does NOT include the registration fee. The registration fee is \$19.95 per pet. It's a one-time fee with no annual renewal fees, made payable to AVID. We will provide you with the needed information to register your pet with the company.

## Pre- Anesthetic Testing Consent

Before placing your pet under anesthesia, a veterinarian will perform a complete physical examination to identify any existing medical conditions that could complicate the procedure and compromise the health of your pet. Like you, our greatest concern is the well being of your pet.

Because there is always the possibility that a physical exam alone will not identify all of your pet's health problems, we strongly recommend that a pre-anesthetic profile be performed prior to anesthesia.

It is important to understand that a pre-anesthetic profile does not guarantee the absence of anesthetic complications. It may, however, greatly reduce the risk of complications as well as identify medical conditions that could require medical treatment in the future. This also serves as a good way to know what is normal for your pet in case he/she gets sick in the future. We are also able to identify potential problems that your pet may have in the future.

The blood tests we will be running will check for abnormalities in:

BUN/CREA (Kidneys)	Glucose (Blood Sugar)	Electrolytes
ALT/ALPKPHOS (Liver)	TP (Total Protein)	CBC (anemia and infection)

- Presurgical Blood Panel:** (Includes 14 blood panel tests + CBC) – Cost: \$85
- Senior Preventive Screen:** (Includes 19 blood panel tests, CBC, + thyroid check) - Cost: \$125

**Accept:** \_\_\_\_\_ **Decline:** \_\_\_\_\_

## Pain Management Consent

Every surgical procedure creates some level of pain or discomfort for our pets. Huge advances have been made in veterinary medicine to create safer, more effective analgesia than what was on the market before.

Our pain management plan for our patients includes an analgesic injection prior to the surgical procedure, so when they awake they are comfortable. We recommend a second injection is administered to your pet before you pick them up. We also dispense oral pain medication as the patient leaves that is to be administered at home the following morning and for a few days after surgery.

### ***Additional Pain Management:***

- Both: Post-operative Injection and Oral Pain Medication (Cost: \$44)**
- Only: Post-operative Injection (Cost: \$32)**
- Only: Oral Pain Medication (Cost: \$12)**

**Accept:** \_\_\_\_\_ **Decline:** \_\_\_\_\_
